Other topics must wait, or be reduced to the nar-rowest dim n icus, until the eventful 6th of November. After that time, but more especially after the 1st of next January, we shall be able to forego Pointical discussion almost entirely, for months if not for years, ned devote nearly all our columns to subjects of less intense, but more abiding interest. Among these, we mean to pay especial attention to

1. Enverance—The whole subject of Education, both Populated Comments of the subject of Education, both Populated Comments and the contraction of the cont

PURE MEDICINAL YEAST.

Manufactured from common Sait and Fure Cream
Tartar. When used in Bread, Cake, or Biscuit, it turns to gas (like that from a bettle of Soda Water), and remains dormant in the dough until it is set in the oven, when the heat causes the gas to escape through the dough white baking. The Bread, Cake or Biscuit is not only very light, but perfectly wholesome. Where this Yeast is used you will require about one-quarter the amount of shortening used with ordinary Yeast. It may also be used for Buckwheat Cakes, Johnny Cakes, and all kinds of Pastry. This Yeast is put up only in one pound cans, with checked label. Red.
